Total wages up 4.7% in third quarter

Growth is from same quarter in 2018; average wages are also up

By DAN ROBINSON

laska employers paid \$4.9 billion in wages during the third quarter of 2019, an increase of 4.7 percent from the same quarter the year before. Private sector wages grew 5.4 percent over the year and government wages increased 2.5 percent.

In Alaska's seasonal economy, wages and job levels are at their highest levels in the third quarter of each year, making third quarter data especially relevant to assessing the state's economic direction.

Oil, seafood processing lead wage growth

Oil and gas wages rose from \$309.3 million to \$335.5 million, an increase of 8.5 percent. Seafood processing wages grew from \$199.3 million to nearly \$228 million, a jump of 14.4 percent.

Alaska's large leisure and hospitality sector, which includes many tourism-related companies, paid out 4.7 percent more in third quarter wages in 2019, totaling \$302.6 million. Health care wages continued a long stretch of growth as well, increasing 4.8 percent to \$594.7 million.

Total wages by industry for third quarters of 2018 and 2019

Source: Alaska Department of Labor and Workforce Development, Research and Analysis Section

The only major sector whose total wages didn't grow over the period was information, which includes everything from telecommunications companies and television and radio stations to newspapers and book and software publishers. Ongoing job losses pushed total wages in information down 3.4 percent.

Inflation was low over the period

Inflation is always relevant when comparing wages or other prices over time. Inflation measures aren't precise enough to match the time period for the wage data shown here, but Alaska inflation rates were relatively low in 2019, averaging 1.3 percent well below the total wage growth percentage.

Highest growth in fishing-dependent areas

Total wages grew in nearly all of the state's 29 boroughs and census areas over the period, with the biggest increases coming from parts of the state

About the data

The wage data come from the Quarterly Census of Employment and Wages program, one of several cooperative statistical programs between states and the U.S. Bureau of Labor Statistics created to produce critical and objective labor market information.

These employment and wage data are particularly reliable because they are generated from quarterly reports nearly all Alaska employers are required to file under state and federal unemployment insurance laws.

where fishing and seafood processing play central economic roles.

The numbers can be volatile and potentially misleading for areas with small populations because changes to a few key employers' wages, or a big

WAGES

Continued from page 12

project in one of the two years being compared, can make a large difference. A couple of examples are Haines (-12.7 percent) and Yakutat (19.7 percent). Comparing wages over a longer period would give a better sense of how wages are rising or falling in smaller places.

Average quarterly wages were also up

While comparing total wages over time reveals whether an economy as a whole is growing, looking at average wages helps determine whether the increase is due to job growth or people in existing jobs making more money. It's almost always some combination of the two.

The state's average quarterly wage was up 4 percent over the year, with most industries recording job growth as well as higher total wages. A few notable exceptions were retail trade, information, state government, and local government. All four of those sectors lost some employment, but their total wages went up. One likely explanation is that job losses in those sectors were disproportionately lower-wage positions. Another possibility is that higher-wage job holders received bigger pay bumps than those making less.

Statewide, average quarterly wages were up by \$500 over the period, to \$14,257 in the third quarter of 2019. North Slope jobs paid the most, at \$24,630. The next highest quarterly wages were in the Northwest Arctic Borough, at \$19,045.
